RoboCAP RL-300/500

UPGRADE

A-1 Bottles

Output: 500 - 2,500/hr

*Based on 30 ml Bottle

RoboCAP RL-300/500

UPGRADE

Complete Your Production
With The "Cart Start" Package

Cartridge Press

MonoPress

The MonoBlox Product Suite consists of the MonoBlox, the MonoPress, and the MonoTray. This setup is ideal for filling & capping press top cartridges.

The MonoBlox are custom cut for your cartridge sizes and are removable from the MonoTray so that the closing process can begin while the machine continues to fill. This eliminates any chance of leaking, clogging or oxidization.

Product Features:

- Fill to Capped within 45 seconds
- Easy to use and operate
- Enclosed Secure Pressing Space
- Overall Increased Throughput
- Custom molded to your product

MonoPress Specifications:

Cycle Time (sec)	6
Weight (kg)	18.1
Width (mm)	343
Height (mm)	406
Depth (mm)	368
Input Pressure Range (PSI)	50 - 120
Max Cartridge Height (mm)	45.7

For Press Top Cartridges Only
